

PRESS RELEASE

Nikos Engonopoulos

30 March – 30 April 2022

Ikastikos Kiklos DL presents on Wednesday 30 March 2022 the solo exhibition of Nikos Engonopoulos.

When Dimitris Lympelopoulos approached me and proposed with enthusiasm that we made giclée prints of some of my father's works I readily agreed, being aware of the quality of his work.

Thus in parallel with the current exhibition at the B & M Theocharakis Foundation we present 22 number copies, so that my father's works can be more accessible and be enjoyed by more people.

This presentation also includes eight original works — costumes for the production of Euripides' *Ion* designed for the Thymelian Theatre Company of Linos Karzis in 1959.

The works selected for multiple reproduction are among historic works, those that represented Greece in the Venice Biennale of 1954 as well as more recent creations.

I believe this was an excellent idea by Dimitris, and one that will contribute to the dissemination of Greek art.
