Antonis Kapnisis

DeadenD

7 November – 30 December 2025

Ikastikos Kiklos DL in collaboration with **DL Gallery** presents on **Friday 7 November 2025** the solo exhibition "**DeadenD**" of Antonis Kapnisis.

Creating a concise yet flexible language, Kapnisis engages with the history of painting, not to reproduce or deny it, but to reflect on how an image is constructed today. Through drawing and painting, which lies at the core of his research, Kapnisis shapes a rigorous and introspective system where form operates as a carrier of order, rhythm and tension. The image does not emerge spontaneously but arises from a kind of visual architecture.

The dead end implied in the title delineates a place, a garden, a visual field, thus defining a conscious condition: the choice to move within limits, within a space where no external escapes exist. In this context, painting does not seek an exit, but rather a deepening.

Exhibition opening: Friday 7 November 2025 at 19:00 – 22:00
